DETAILED ACTION

Election/Restrictions

Claims 13-15 and 20-25 are withdrawn for reason of record. Claims 1-15 and 17-25 are pending. Claims 1-12 and 16-19 are under consideration. This Office action contains new grounds of rejections.

Claim Rejections - 35 USC § 102, Withdrawn

The rejection of claims 1-6 and 8 under 35 U.S.C. 102(b) as being anticipated by Kornblau et al., 1994, Cancer Research, vol. 54, pages 242-246 as evidenced by Li et al., IDS filed on 11/17/2006, JBC, vol. 269, pages 18616-18622 is withdrawn in view of the amendment.

The rejection of claims 1-5, 7, and 8 under 35 U.S.C. 102(b) as being anticipated by Li et al., IDS filed on 11/17/2006, JBC, vol. 269, pages 18616-18622 is withdrawn in view of the amendment.

The rejection of claims 1 and 8-10 under 35 U.S.C. 102(b) as being anticipated by US 20030109465 (filing date of 07/06/20010) is withdrawn in view of the amendment.

The Following Are New Grounds of Rejection

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1642

Claims 2-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 2-10 are confusing because the amended base claim now has two assay systems and it is not clear which assay systems is being referred to.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 1-12 and 16-19 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. This is new matter rejection.

Claim 1 recite "Chaperonin containing T-complex subunit 6A". The specification as originally filed on page 3 line, 6-7 discloses "Chaperonin containing T-complex subunit 6" but the specification as originally filed does not have support for "Chaperonin containing T-complex subunit 6A".

The dependent claims are also rejected because "CCT6" in the dependent claims has a new definition.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
